WORK EXPERIENCE

Junior Physiotherapist — Harborview Rehabilitation Clinic

Feb 2022 – Present

- Deliver individualised treatment plans for patients recovering from orthopaedic surgery, sports injuries, and chronic pain conditions.
- Apply dry needling techniques as part of integrated pain-management and muscle-recovery programmes.
- Design and supervise fitness and strengthening programmes to support patient rehabilitation goals.
- Communicate treatment progress clearly to patients, families, and referring doctors, ensuring shared understanding of care plans.
- Maintain accurate clinical records and contribute to weekly multidisciplinary case discussions.

Physiotherapy Intern — Northfield Community Health Centre

Jan 2021 – Dec 2021

- Assisted senior physiotherapists with patient assessments and rehabilitation exercises under supervision.
- Supported group fitness and mobility classes for elderly patients and post-surgical patients.
- Built rapport with patients from diverse backgrounds through clear, empathetic communication.
