ReeTM

Business Analyst

Johannesburg, South Africa | tee.ba@example.com | +27 71 555 0198 | linkedin.com/in/thabonkosi-ba

Professional Summary

Results-driven Business Analyst with 6+ years of experience translating business needs into practical technical and process solutions across banking and retail sectors. Strong track record in requirements gathering, stakeholder management, and data-driven decision making. Excellent communication skills, adept at bridging the gap between technical teams and business stakeholders to deliver measurable value.

Core Skills

- Requirements gathering, elicitation, and documentation (BRD, FRD, user stories)
- Stakeholder engagement and clear, confident communication at all levels
- Business process mapping and optimisation (BPMN, Visio)
- Data analysis and reporting (SQL, Power BI, Excel advanced functions)
- Agile and Scrum methodologies; backlog management (Jira, Confluence)
- Gap analysis and solution design
- UAT planning, coordination, and execution
- Strong communication and Teamwork Skills
- Facilitation of workshops and cross-functional meetings

Professional Experience

Senior Business Analyst | *Highveld Retail Group* Mar 2022 – Present

- Lead requirements gathering for a supply-chain digitisation programme spanning 4 business units.
- Communicate complex process changes clearly to non-technical stakeholders, driving 90% adoption within 3 months.
- Facilitate weekly workshops between IT, operations, and finance to align on project priorities.
- Produce dashboards in Power BI that inform executive-level decision making.

Business Analyst | *Sandton Financial Services* Jul 2019 – Feb 2022

- Gathered and documented requirements for core banking system upgrades, reducing rework by 25%.
- Acted as the primary liaison between business users and development teams, ensuring clear communication throughout the SDLC.
- Coordinated UAT cycles with over 40 business users, resolving issues through structured feedback sessions.

Junior Business Analyst | *Pretoria Insurance Solutions* Jan 2018 – Jun 2019

- Supported senior analysts in process mapping and documentation for claims-handling systems.
- Prepared clear, concise reports and presentations for management review.

Education

Bachelor of Commerce in Computer Information Systems | *University of the Witwatersrand* 2014 – 2018
